MONDAY, JULY 3. 1738.

N° 943.

Yesterday arrived the Mails due from Holland, Flanders, *and* France.

Petersburgh, June 5. O. S.

THE Earl of Crawford, one of the 16 Peers of Scotland, having seen every thing that is remarkable in this City, set out two Days ago to make the Campaign in the Army under Count Munich, and is accompany'd by the Gentlemen who came over with him from England.

The last Letters from that Army say, that since the 18th ult. O. S. when the Count decamp'd with it, to the 20th, he march'd not above 60 Wersts, or 8 Leagues. 'Tis said the General has Orders to make such short Marches, not only to prevent the Troops from being too much fatigued at their first Arrival in a Desert Country; but to give General Romanzow, who stay'd behind, time to overtake him. The Troops that were advanced some Days March before Count Munich, have Orders to keep within 2 Marches of his Army.

From the Imperial Camp at Temiswaer, June 3. O. S. Our Generals have taken all the necessary Measures, that nothing may be wanting to the Army which is to march towards Meadia, to dislodge the Turks from thence, and to force them to raise the Siege of Orsova. Notwithstanding the Enterprize appears to be so difficult, by reason of the Defiles which must be passed thro', and the advantagious Situation of the Turks, our Troops seem extremely impatient to engage with the Infidels: As 'tis foreseen that there will be more need of Foot than of Horse to force a Way thro' all those Defiles, the Dragoons are exercised on Foot every Day, in order to be imploy'd, if there's a Necessity for their Dismounting. We have Advice, that the Turks who were advanced into this Bannate, to assist in destroying the Copper Mines, are retir'd to Meadia, for fear of being intercepted by the Prince de Lobkowitz.

Vienna, June 14. O. S. Letters from the Army say, that tho' Part of the Batteries, and other Works erected by the Turks, for the Siege of Orsova, have been ruin'd by the Overflowing of the Danube, yet the Infidels were not discouraged, but had repair'd the Damages as well as they could, and seem resolv'd to carry on the Siege with all possible Vigour.

Yesterday an Express came to Court with the News, that the Great Duke of Tuscany, and his Brother Prince Charles, arrived in the Army in the Bannate of Temiswaer on the 19th, by way of the Danube; but that the Counts de Lutherer, de Riscau, and Altheim, who were in their Royal Highnesses Retinue, but travelled by Land, had the Misfortune to fall into the Hands of the Turks. 'Tis reported that some Houses have been shut up at Temiswaer, because People have died there, as 'tis suspected, of a contagious Distemper; and that their Bodies have been burnt to prevent Infection.

Madrid, June 6. O. S. The Court has order'd 12 Men of War more to be fitted out at Cadiz, which 'tis believed are design'd for the West Indies, as well as the 6 Ships lately fitted out at that Port.

Mean time we are informed by another Letter of the same Date from Madrid, that the Court having received the Information which it expected from the West Indies, with regard to the English Ships carry'd in thither by the Spanish Guarda Costas, and the King being desirous to convince the Court of Great Britain of his Inclination to be upon good Terms with it, his Majesty has sent the necessary Orders for releasing some of those Ships, and for indemnifying the Proprietors for any Prejudice they may have sustained while they were under Sequestration. The Sardinian Minister has lately received so many Expresses from Turin, and has held so many Conferences with the Marquis de la Quadra, that 'tis more and more suspected that some important Affair is in Treaty betwixt this Court and his Sardinian Majesty.

Lisbon, May 22. O. S. Since Don Emanuel's Return hither from Bayonne, he has received great Marks of Friendship from the King his Brother, who has had frequent Conferences with him in Private; and 'tis again reported, that he will soon embrace the Ecclesiastical State, in which Case, 'tis said, he will be made a Cardinal and Archbishop of Braga, a Dignity to which that of Primate of the Kingdom of Portugal is always annexed.

Dresden, June 17. O. S. M. Villiers, the British Envoy Extraordinary, had a private Audience Yesterday of their Majesties, to whom he delivered a Letter from his Britannick Majesty, notifying the Birth of the Prince, Son to the Prince of Wales.

Berlin, June 20. O. S. The King had a Fit of the Gout 3 Days ago, which made him put off his Departure for Cleves; but being since perfectly recovered, he has fix'd his Journey for Wesel on the 28th Instant. M. Gudikens, the British Resident here, has obtained Leave from his Court to go to England for two Months, about his own Affairs.

Dresden, June 19. O. S. The Queen of the Two Sicilies has acquainted their Polish Majesties, by Letter, that she has had a most agreeable Journey thro' the Dominions of Venice, that she can never say enough of the Honours she has received from that Republick, and that she should ever acknowledge them with the most sincere Gratitude.

Hamburgh, June 20. O. S. We hear from Copenhagen, that a Swedish Man of War had passed the Sound, as Convoy to another great Ship which the Crown of Sweden sends the Ottoman Porte, with a certain Quantity of Arms, pursuant to an Engagement for discharging the Debts contracted by the late King Charles XII. during his Stay at Bender.

According to a List of the Damage done in the Neighbourhood of Hildersheim, by the Storm there on the 16th of May, it appears that there were drowned 12 Men, 34 Women, 26 Children, 37 Horses, 254 Black Cattle, and 85 Porkers; that 37 Houses were washed away, 274 others extreamly damaged, 3 Mills ruined, 16 Warehouses of Salt carry'd away, and 17 others very much damaged, 3 Salt Springs stopped up, and 78 Gardens ruined by the Torrents.

Ratisbon, June 20. O. S. The Duke of Mecklemberg has wrote a Letter from Wismar to the Emperor, and another of much the same kind, to several of the chief States of the Empire, wherein he complains of that City's being block'd up by the Hanoverian Troops, by reason of his Stay in it, and that the said Troops support the Duke Christian Lewis his Brother, and the Regency of that Dutchy in every thing that they do: This he pretends to be contrary to his Rights, for which he appeals to the Treaty of Westphalia, and the Constitutions of the Empire, as he has done in every Letter he has wrote upon that Head, for above Twenty Years past.

Breda, June 23. O. S. The Prince and Princess of Orange intended to set out to Day or To-morrow, to spend a few Days at Loo, and from thence to go to Dieren, a pleasant Seat near the Issel; but the continual Rains have made the Roads so impracticable, that 'tis said the Princess has determin'd to stay here a few Days longer; but the Prince sets out To-morrow for Guelderland, and 'tis said he will make a Tour elsewhere, and that immediately after his Return he will go to Leewarden in Friseland, where the Princess proposes to Lye in. Mean time the Prince has ordered publick Prayers to be put up in all the Churches of his Dominions, for the Princess's happy Delivery.

Hague, June 27. O. S. 'Tis reported that the Prince of Orange has put off his Departure to Breda for a few Days longer, because his Princess is ill of a Cold.

On Saturday Night last about 10 o'Clock, a Fire broke out at Mr. Kidd's Sugar Warehouse, the Bottom of College Hill near the Three Cranes, which burnt furiously till Three the next Morning before it could be got under; and as we are informed, near 30 Houses are burnt and damaged, amongst which were several Cyder Warehouses, which contained several Hundred Hogsheads and Pipes of Cyder. The Engines could not conveniently get at several of the Houses,

Houſes, by reaſon they lay in cloſe Alleys, and burnt backwards. There was likewiſe a Diſſenting Meeting Houſe burnt down.

'Tis ſaid that this unhappy Accident began in the Warehouſe as they were boiling the Sugar, occaſioned by the Negligence of a Servant, as 'tis ſaid, who placed the Candle too near ſome Shavings which took fire.

ANTI-SYPHILICON.

THE only ſhort and moſt infallible Cure in the Univerſe for the VENEREAL DISEASE, from the ſlighteſt Infection to the moſt extreme and deplorable Degree of it, even when the Blood and Juices are thoroughly contaminated with its malignant VIRUS, and the very Bones are affected with it.

Freſh Infections, call'd CLAPS, with all their attendant Symptoms, tho' ever ſo ſevere, are entirely carried off by it in a few Days, and ſo as effectually to prevent the Blood and Juices from being tainted with any remaining Relicts on one Hand, or a ſeminal Gleet or Weakneſs to happen on the other.

And the moſt inveterate Degree of the French Illneſs, attended with Nocturnal Pains, univerſal Breakings out, and all the other moſt exaſperated Symptoms, are ſoon overcome by it, and effectually and much more ſafely cured than by Salivation, Inunction, or any other Method whatever, and in ſo eaſy and pleaſant a Manner, without impairing Strength, or occaſioning any Inconvenience, as loudly to beſpeak it the only appoſite Remedy or true Venereal Antidote in the World; and this ſome Thouſands have to their great Joy experienc'd.

It is pleaſant to take, occaſions no Sickneſs or Diſorder, nor requires Confinement; but may be taken, and the Cure be accompliſh'd, without the Knowledge of the neareſt Friend.

Thoſe who ſuſpect they have received an Injury, may by only a Doſe or two of it, be perfectly freed from all Apprehenſions; for it ſuffers no lurking Venom to lie hid in the Body, but wholly extirpates it Root and Branch, in a gentle, eaſy, and moſt effectual Manner.

All ſuch likewiſe as doubt they have ſome remaining Relicts of former Injuries, may by a few Doſes of it intirely free themſelves from all Suſpicion of that Kind; for it admits of no Foulneſs, Corruption, or Putrefaction whatever, to remain in the Fluids, or to adhere to the Solids; and on that Account, in all ſcorbutick, ſcrophulous, and even leprous Eruptions or Foulneſſes of the Skin, Glandulous Swellings and Impurities of the Juices, it does more by one Doſe, than any other Medidine yet known can by ten.

The Price of this moſt Noble ANTI-SYPHILICON is but Six Shillings a Pot, which, conſidering its extraordinary Efficacy, one Pot only being ſufficient in moſt Caſes to accompliſh the Cure, is not a tenth Part of its Value; and is appointed by the Author to be had only at Mr. RAMSDEN's Toyſhop, at the Roſe and Crown againſt St. Clement's Church-Yard in the Strand, ready ſealed up with a Book of Inſtructions, by the Peruſal of which, all Perſons who were ever affected with any Degree of the Venereal Diſeaſe, may perfectly underſtand their own Condition, and certainly know when, and when not, the Venereal Poiſon is intirely rooted out of their Bodies.

N ote, Ask only for a Six Shilling Pot for the Scurvy.

LONDON Printed for T. COOPER, at the *Globe* in *Pater-noſter-Row*.
